"Choose natural stone for your home the strength and durability will outlast artificial stone"

All Stone travels internationally to find exotic and rare stones and our selection includes a wide variety of stone collections and unique surfaces that are not supplied anywhere else.

For over a decade, All Stone has been bringing beauty and quality to home and business owners across the tri state area. From enduring walkways, superior porches and quality patios to rustic fireplaces, modern kitchens and luxurious rooms, All Stone can provide remarkable stones for the stunning renovations you expect and the extraordinary results you deserve.

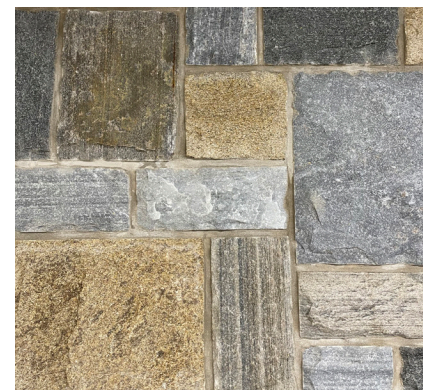

NATURAL STONE DISCLAIMER: Allstoneproducts.com Inc. has partnered with some of the top quarries from around the world to offer Natural Stone products that's unmatched by its competitors. Natural Stone will vary in color, pattern, and texture, because these are natural products and not man-made. Product might vary from display models in terms of color and texture. No two pieces are alike when it comes to Natural Stone; that is what makes these products beautiful and unique. Natural Stone products can last a lifetime, but if you want to keep them looking like they did when initially installed, some general maintenance is necessary. Natural Stone products may stain or become scratched because they contain naturally porous surfaces. To avoid staining from occurring, keep surfaces clear of dirt, damp leaves, acidic products, and oils. If any of these things do come in contact with your Natural Stone, remove them as soon as possible by cleaning them with soap and water. If this method does not work, then natural stone cleaning products can be found in your local building material store. Be sure to avoid any cleaners containing acids.

HarvestGold WireBack with Brownstone steps

WireBack Stone

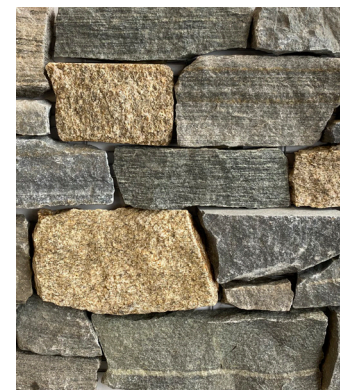

A rugged, rustic, and overall ravishing stone that is ideally used in outdoor settings to provide homeowners with a natural stacked stone look. The wire backing allows for complete support and an immensely rapid application process. This bucolic and pastoral stone is commonly used as an alternative to rockface paneling because it allows for the incorporation of larger stone pieces into the patterning and design.
